

PERRIN & ROWE HOSPITALITY

“THE WORLD’S FIRST 3-IN-1 TAP, USING  
GROUNDBREAKING TECHNOLOGY, THIS  
PRODUCT MADE THE INDUSTRY SIT UP  
STRAIGHT AND LISTEN”

DAVID COLE - SALES DIRECTOR - PERRIN & ROWE

## FROM HUMBLE BEGINNINGS

### AND IT ALL STARTED IN AN OLD GARDEN SHED...

Established in 1978 by Bob Perrin and Greg Rowe, the company started life in a large barn in Bob's back garden in East London, engineering and manufacturing components for other brassware companies.

Early on in the 1980s, Perrin & Rowe obtained a reputation as excellent problem solvers and accomplished engineers and we expanded and acquired our first factory in Rainham, Essex. Now we could really start to develop our own products, not just components for other companies.

The world's first tap containing Triflow Technology was invented and patented in 1991. A three-way tap that dispensed hot, cold and filtered water. Quickly becoming an established market leader and within a few years was selling around the globe.

Having established a reputation for excellence and quality, Bob Perrin and Greg Rowe were now keen to expand their own brand and in 1993, the first Perrin & Rowe kitchen products started to roll out of our factory.

A natural progression of the success achieved within the kitchen industry led us to develop and produce the first range of bathroom brassware in 1995. It was clear that the UK market had been waiting for products such as ours, with timeless, beautifully proportioned designs, considered function and lifelong quality all built in. It also became obvious that other markets desired these qualities and an exclusive distribution deal with Rohl in the US quickly brought Perrin & Rowe fittings to an overseas market craving English tradition and excellence. Australia and New Zealand followed and all these relationships are still going strong today.

By the millennium, it was evident that Perrin & Rowe had outgrown their current factory and we moved to a huge 55,000 sqft facility in 2003, enabling us continued growth for years to come. In a few short years, the Company also acquired premises in the midlands to secure the casting, polishing and plating processes, and also a production facility to allow the launch of our own Sanitary ware range.

Today, Perrin & Rowe is one of the largest manufacturers of authentic kitchen and bathroom products in Great Britain, employing over 140 people. We have redefined the market needs for classically British decorative brassware and managed to keep skilled manufacturing jobs here in the UK.

With factories in Tamworth, Rainham and Wolverhampton, all Perrin & Rowe products are manufactured from raw materials by our skilled team of engineers. With an ongoing commitment to preserving skillsets, we offer a number of apprenticeship schemes with an emphasis on teaching participants the engineering skills required to manufacture the high quality products offered by Perrin & Rowe.

PERRIN & ROWE TODAY

THE FUSION OF FUNCTION AND BEAUTY; DURABILITY AND DESIRABILITY

The strength of the Perrin & Rowe brand is built upon a clear understanding of the requirements in the luxury sector: product reliability, durability, quality and real value for money. Renowned for our unrivalled quality and an exacting attention to detail, our wide and varied product portfolio includes kitchen taps, bath and basin brassware, bathroom accessories and bathroom chinaware, all designed and manufactured in our own UK factories.

Perrin & Rowe products are outstanding examples of design excellence combined with cutting edge precision engineering. Our products are not mass produced; instead we concentrate on perfecting each individual product by controlling each process to our own exacting standards.

Our reward – Perrin & Rowe products have consistently been specified and installed in the most stunning and luxurious hotels, resorts, spas and private residences around the world.

THE PERRIN & ROWE PROMISE

All products are manufactured in the UK from the highest quality raw materials available.

Inspired by innovation and driven by engineering excellence.

Manufactured employing the latest available technology.

Plated to a thickness that exceeds the industry standards. This additional plating will ensure a deep, protective coating that is resistant to wear and tear as well as pleasing to the eye.

Assembled by hand and individually water tested to ensure peace of mind.

Made to include bearing rings and engineering 'O' seals on handles and spouts to ensure maximum durability. This feature prolongs the service life of the product and gives Perrin & Rowe products a stable 'wobble-free feel'.

Containing ceramic disc valves supplied by a leading ceramic valve manufacturer, the valves are repeatedly tested up to 500,000 life cycles, (turned on and off with pressurised water), designed to simulate up to 25 years domestic use.

Specifically manufactured for each market. No additional adapters or converters are required for installation.

### TAJ LAKE PALACE

UDAIPUR  
INDIA

A vision in white marble, emerging from the centre of Lake Pichola on its own 4 acre island in Udaipur, the 5 star Taj Lake Palace was originally built under the direction of a former Maharaja. Constructed to face east to allow inhabitants to pray to the Hindu sun god at the crack of dawn, the palace became a summer resort for rulers over the following years. Today, the hotel is considered to be one of the most romantic hotels in the world and has featured in many films and television programmes, including James Bond's Octopussy where it was the secluded lair of the eponymous Bond Girl. With breathtaking views of the neighbouring palaces and hills, the 66 rooms and 17 suites of the palace were restored to their pristine glory with ornate and intricate arches, paintings, crystal and stained glass.

### SOFITEL

#### ST JAMES LONDON

This stunning Sofitel Hotel is located in the former home of Cox's and Kings' Bank in the very heart of London in the St James area. Lying between Green Park, Haymarket, Piccadilly and the Mall, St James was originally developed as a residential area for the aristocracy in the 1660s. This sympathetically renovated building is English Heritage Grade II listed and inside strikes a fascinating balance between old world elegance and modern day design. Living up to its exceptional locating, the Sofitel St James combines traditional British design with contemporary style that is unmistakably French.
